Trainees receive completion certificates in Mayuge District

About Us

Who we are

CORE is a Japanese International Non-Governmental Organization registered in Uganda in 2018.

The concept of CORE is to link Youths and Farmer's groups to the markets physically and commercially.

Our Vision and Mission

Vision :

"Envisioning a world free of Poverty and Hunger for better livelihood"

Mission :

"Empower Farmers and Youths to be self-reliant, to self-develop, to self-market"

Do-nou Technology

Do-nou technology is to put suitable, measurable laterite soil in a gunny bag, tie the open end, lay them systematically on a damaged road section, compact and backfill with suitable gravel wearing course.

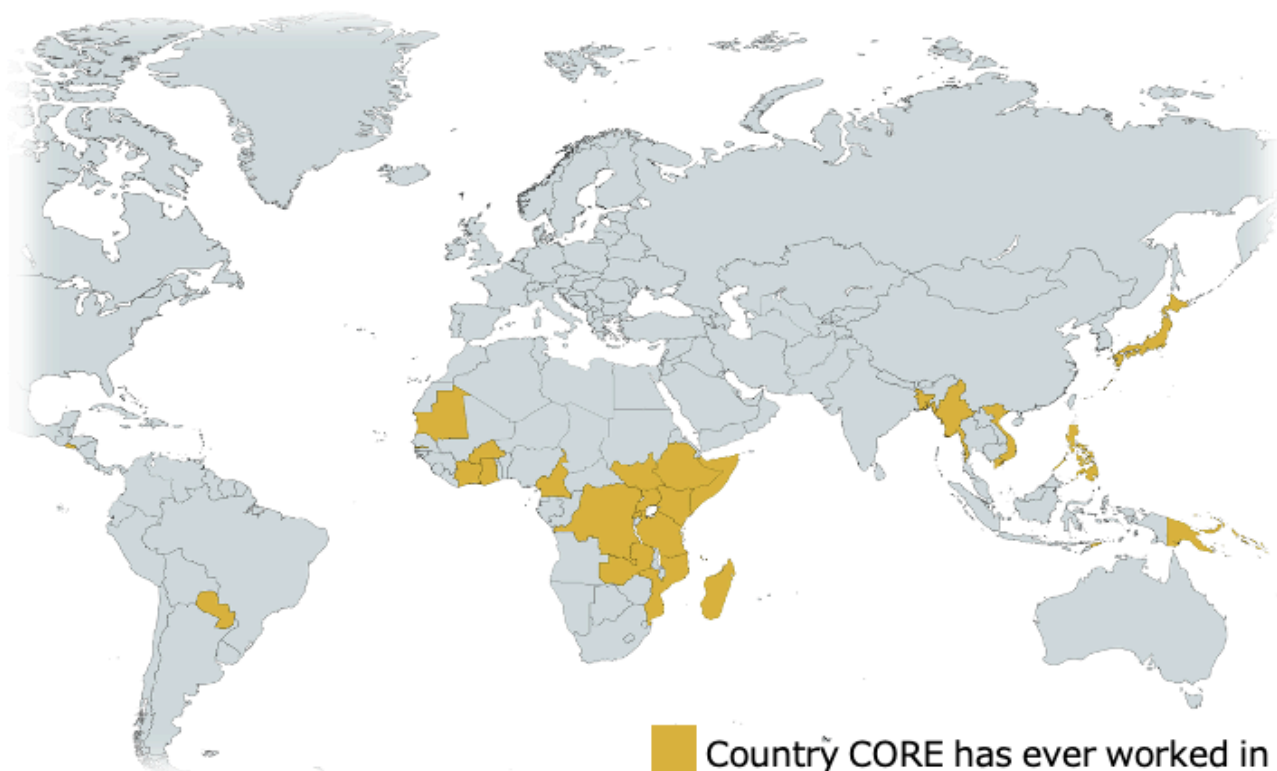

CORE Worldwide Achievement

☆CORE has been working in **29 countries** and trained **15,000 people**.

Region	Number of Countries	Length of Repaired Road (m)	Number of Persons Trained (persons)
N America	1	0	200
S America	1	20	30
Africa	18	77,226	13,318
Asia	5	34,028	3,578
Pacific	4	90,604	3,225
Total	29	201,878	20,351

As of November 2021

To spread the mindset of **"Repairing our roads by ourselves"**
we are working around the world.

Why is Do-nou an appropriate technology?

There are 4 advantages to apply Do-nou technology.

1. Uses locally available materials (Gunny bags, Gravel & Laterite Soils)
2. Labor based technology, hence it creates employment
3. Easy to learn and adopt, hence it is sustainable.
4. Durable (Road sections repaired using Do-nou last longer)

How to repair roads using Do-nou technology

1. Identify impassable section of the road, and mobilize community members.

2. Put suitable soil in a Do-nou bag and tie it properly.

3. Lay the Do-nou systematically to damaged road and compact them appropriately.

4. Spread murrum (soil) on top of Do-nou layer, and compact. Roads become passable again.

Our Achievement on MOFA

Buwasa – Luguzi Road in Wakiso District

MOFA 1st ~Central Uganda

[Kampala and Wakiso districts]

We repaired 603m of CARs using Do-nou technology and trained 160 community members to be “self-reliant”.

Road-opening ceremony in Kasese District

MOFA 2nd ~Western Uganda

[Bunyangabu, Kasese, Kabalore, Kyenjojo districts]

We repaired 1,555m of CARs and trained 205 community members. Also we had trainings on SACCO registration.

Namalere swamp Before
(Mayuge District)

Namalere swamp After

MOFA 3rd ~Eastern Uganda

[Namisindwa, Sironko, Kaliro, Jinja and Mayuge districts]

We repaired 1,187m of CARs and trained 252 community members. Some trained groups have received works from districts and created sustainable employment.

Other Projects in 2021

TOTO Project in Bussi Island

To protect natural resources of Bussi Island and improve the access to clean water, we encouraged tree planting and roof water harvesting among the communities. Also we trained young generation to be environment ambassador, and develop environmentally sensitive actions.

TOYOTA Project in Bududa District

Bududa Soil Conservation and Resilience support project is funded by TOYOTA Japan. We had landslide & soil erosion prevention practices using “Do-nou”, and Environmental and Agro-forestry training to farmer groups and schools

UNDP Project in Adjumani and Obongi

In partnership with UNDP, we are carrying on project aiming at strengthening resilience of the refugees and host communities, by supporting them to open new roads and repair existing ones using labor-based techniques, and having a theoretical & practical training on energy-saving technologies & tree planting.

Donors and Partnerships

Period	Donors
2019-2021	Ministry of Foreign Affairs (MOFA) - Japan
2019-2021	TOTO Water Environment Fund
2020-2021	TOYOTA Environmental Activity Grant Programme
2020-2021	UNDP United Nations Development Programme

Period	Partners
2019-	Central Region, Kampala Capital City Authority, Wakiso Local Government
2020-	Western Region [Kyenjojo, Bunyangabu, Kabalole, Kasese] District Local Government
2021-	Northern Region, Lamwo District Local Government (Pulabek settlement and host communities)
2020-2021	Eastern Region [Jinja, Mayuge Kaliro, Sironko, Namisindwa] District Local Government
